### His Long Suit.

His Majesty considers the giving of whiskey to an indian as a waste of good liquor.

### McKinley Heard from.

A LETTER has been received in Wrangel from the Executive Mansion in Washington D. C., saying: that the charges preferred against Commissioner Fred Page Tustin; and copies of the Stikeen River Journal have been received and noted. The matter has been turned over to the Department of Justice for action.

### Topeka a Wreck.

THE steamer City of Topeka is a wreck in the narrows on Anchor Rocks. This is undoubtedly the result of too much haste. The Topeka came into Wrangel on Wednesday evening and left immediately, with the tide running out, in a mad race to pass the narrows in that tide. Full particulars are not at hand, but the parties who came to Wrangel for assistance, state that at high water, the entire ship except the pilot house is under water.

### It Beats the Band.

The newest and most inspiring piece of Sheet Music, arranged for piano, is "The Pioneer Limited March" composed by Capt. Frederick Phinney, Bandmaster of the United States Band, published by S. Brainard's Sons Co., Chicago, Ill.; distributed only by the Chicago, Milwaukee & St. Paul Railway. Enclose fifty (50) cents and address, Geo. H. Headford, General Passenger Agent, 555 Old Colony Building, Chicago, Ill.

### WHAT THEY SAY.

#### A FEW EXTRACTS FROM LEADING PAPERS REGARDING THE GRAFTERS.

The Roseburg Review, published in the late home of Fred Page-Tustin, has this to say about the King. "We notice by the Fort Wrangel (Alaska) Journal that Judge Fred Page-Tustin is very severe in passing sentence upon those who sell liquor to the Indians. Up in the frozen clime where transportation facilities are uncertain and often inadequate, Tustin is not the man to remain passive and unconcerned while good whiskey is being poured down the throats of untutored savages. In a land where distilleries and breweries are as numerous as are special land agents under Commissioner Herman, the judge might be more lenient. But in Alaska—not by a jugfull!" And in another issue the same paper says: "The Stikeen River Journal, the only newspaper published at Fort Wrangel, Alaska, is camping on the trail of U. S. Commissioner Fred Page-Tustin, late of Roseburg. It accuses him of various irregularities and asserts things are getting warm for the Judge." The above is followed with a column of matter copied from the Journal about our King Fred, the Grafters, Illegal fees, False imprisonment and Costs.

The Skagway-Atlin Budget of March, 11th, says: The people of Wrangel have lived for years under the impression that all the benefits of a free government were theirs to enjoy, but such is not the case. The rights of the constitution have been abridged, and the liberties of the people trampled under foot, by the powers that be. The constitution of the United States, and the State of Oregon guarantees to every man charged with a criminal offence the right of trial by jury, and yet there is languishing in our jail, in our midst, a man who is refused a fair trial, and is sentenced to imprisonment by a self appointed king. The words liberty and justice are a mockery, and the spirits of our forefathers may hang their heads in shame at the spectacle

of American citizens bowed down to a government which permits the lives and liberties of the people to be placed in the hands of one man in whose choosing they have no voice. The spirit of '76 lies dormant; but the king may be assured that it will awake and assert itself, and when it does something will drop, and that something may be the official head. The town is getting warmer and next week we will give the public more matter to think over. —Journal.

The following is taken from the Alaska Miner, of Juneau: "The Stikeen River Journal, of Wrangel, in its issue of March 18, prefers charges against the Deputy Collector of Customs at that port, and promises to make further disclosures. On commenting upon this the Post-Intelligencer of the 16th calls attention to an interview with the Collector before he went to Washington in which he referred to his former enemies now being his friends, and that the newspapers had ceased their attacks. It fell to the lot of the Miner to lead the fight against the customs administration in Alaska, and the court records show how well we succeeded. If our duty points in a similar direction in future we shall faithfully perform it, having made no affiliation with any person which could make such a course inconsistent or embarrassing to us. The course taken by the Journal in exposing wrong doing may not suit a few whose deeds are done in the dark, but it will provoke the respect of all right-minded men and its efforts deserve encouragement and the Miner welcomes the fact that another evidence is supplied of the fearlessness of the press. It is due to those officials whose records are spotless that others who disgrace themselves and discredit the government which appointed them should be dragged before the light of public opinion and exposed to the penalty incurred.

The San Francisco Chronicle under date of March 16th, says: The Stikeen River Journal is making very serious charges against Fred Page-Tustin, United States Commissioner at Wrangel. It claims editorially that he is not only extorting more than the legal fee for the work that he does, but that he has even sentenced a man to jail contrary to law. The latter case is that of Harry Neilson, who was taken to Sitka by Deputy Marshall Grant on the last trip of the Cottage City. He has been sentenced to serve four months. He is said to have demanded a jury trial, which was refused because Neilson would not put up bonds to cover the costs of the case. It is hinted that a suit for damages will follow when Neilson is released. Editor McKeand claims editorially that Commissioner Tustin has admitted that he charges \$2 each for recording mining locations, when the charge should not exceed 50 cents. The following is an extract from a recent editorial: "It will be a surprise to many of our citizens when they know the extent to which 'grafting' is carried on in the Court-house at Wrangel. Scarcely an instrument is filed where the 'graft' does not appear in the shape of illegal fees, and not only there, but in criminal cases. A bill of costs amounting to as much as \$25 is charged in cases in where the legal bill of costs should not exceed \$5."

### Alaska Treadwell Report.

The Alaska Treadwell report for February shows 21925 tons of ore worked and 444 tons sulphurets treated, latter yielding \$15,827. The bullion shipment was \$50,504, the ore averaging \$2.30 per ton. February expenses were \$26,444.

## THE wheels of justice, Etc.

It is said you sold liquor to an indian; but I guess it can be fixed up.

EVERY day Harry Neilson remains in jail, constitutes a case of false imprisonment.

WE are compelled through lack of space to postpone the proper handling of others; but our readers may be assured the day of reckoning is not far off.

EMBEZZLEMENT from Uncle Sam—by issuing false vouchers for labor—is a very serious offence punishable by imprisonment; but then working for the government without pay, will be a change from drawing pay from the government without work.

WE would suggest the establishment—by Congress—of a school for the white inhabitants of Alaska, to teach them a higher civilization whereby they may be made to understand the principles of universal suffrage and become capable of self government.

JUNEAU and Skagway must feel proud of their noble work of supplying funds for the use of Governor Brady in lobbying the new law through Congress. Usually people will pay money to avoid being taxed; but here is a people who have so much money, that they are willing to spend money to have another devise means of expending more.

THE time is now ripe for the journalists of Alaska to join forces and work for legislation for Alaska; which will voice the wishes of the people of Alaska. The inhabitants of this country are entitled to select their own local officers, and forever do way with the present odious system of being governed by a lot of the offscourings of civilization most of whom, are political outlaws that have been exiled to an office in Alaska. Such men as Fred Page-Tustin and Joseph A. Arment are—by nature of their being—unfit to hold office in any civilized community, and their actions would never be tolerated anywhere else; and yet they are forced on us without our having any previous know-

ledge of their character or capabilities. In such cases the damage which results before a removal can be effected is very great, and the people of Alaska are the sufferers. Possibly some day when the inhabitants of this great country have reached a degree of intelligence sufficient to justify it Congress may allow us to elect a justice of the peace. In the case of Arment and Tustin, action has begun, which, in all probability, will place those persons where they can no longer disgrace the civilization they are supposed to represent.

EVERYTHING is taxed except: The right to collect rent for government property.

The right to draw vouchers on the government for a larger amount than is legal.

The right to be a King and put men in jail without due process of law.

The right to extort illegal fees and charge illegal costs.

The right to accept overcoats.

The right to act as an agent of the Government in the transaction of business with a firm of professional extorters where the Government agent is a partner of the extorters.

The right to Graft in any way not otherwise specified.

Probably Congress took the sensible view of it, and considered it more expensive to collect tax from Grafters; than the tax would amount to. This is common sense; but it is not impartiality.

THE newspapers of Alaska are generally taking up the cry for Representation in Congress. The idea is a good one and worthy of much consideration. The law recently passed by Congress, is the most sweeping in its effect of any tax measure which ever emanated from that august body. Every thing is included; and after July 1st, next, no business can be conducted without the payment of a tax to the Government. The principal of taxation without representation was the primary cause of the war of the revolution, which resulted in the original Colonies throwing off the yoke of Great Britain. No question exists as to the right of Congress to tax Alaska; but Congress should allow the people of Alaska a voice in the matter. The Boston tea party which resulted in the sending of a British army to Boston, over a century ago, was caused by the determination of the Colonists to resist the exact principal which is now being applied to Alaska and where in America do we find any one who speaks anything but praise and glory for the acts of those noble patriots. If the money which this law will take from our citizens was to be expended in Alaska, it would in a great measure, mitigate to remove any feeling of resentment; but there appears to be no redeeming feature. The money is to be paid into the treasury of the United States, and Alaska is to be given no more real consideration than would be given a beast of burden, which is used, bartered and sold.

J. H. McGregor of the firm of Gore, Burnet & Co civil engineers of Victoria and Nelson, returned from Dease Lake on Thursday evening, having made the trip down from Glenora in seven days. Mr. McGregor reports things very favorable for a good year during 1899. A great deal of work will be done, both at Glenora and at Dease Lake. A large English syndicate by whom Mr McGregor is employed will in all probability put in a hydraulic plant on Thibert Creek, where good claims have been discovered.

The Fort Wrangel Gospel Mission has succeeded in finishing the lower floor of the mission building on Front street and it will be opened for public service tomorrow evening, Easter Sunday. The upper story is not yet completed but work on it will be pushed as fast as the means on hand will permit. This work, which is capable of great good, has been accomplished through the untiring efforts of Mr. A. Stark, and such others as have, at times, lent their aid by assisting in the construction. It is to them that the credit is due having done so much with an outlay of only about \$325 in money. It is due this band of Christian workers that the citizens of Wrangel come to the front and give of their means sufficiently to insure the permanence of the Mission at this place. The expense of conducting it is very small, and all contributors will be amply rewarded by the good that may be accomplished.

## Juneau Mining District.

Judge Johnson has placed the unorganized mining district of Porcupine and Salmon under the jurisdiction of Recorder Malcom, of Juneau, and he has appointed deputies at different points.

The following is a copy of the order: United States District Court, District of Alaska.

In the matter of the application to modify the order of this court, dividing the District of Alaska into recording districts, made and entered herein on the 9th day of October, 1896.

Order: On reading and filing the petition of John F. Malony and others, setting forth the fact that recent important discoveries of placer claims have been made on the Kiohena, Chileat, Salmon and Tabken rivers and their tributaries lying and being between the 136th and 187th degrees of longitude west from Greenwich, which said streams lie upon the water shed and are tributary to Lynn Canal, and it further appearing that many of said petitioners own or are interested in said claims, and that many of the location notices of said claims have been recorded in the office of the recorder at Juneau, and that such office is the most convenient and accessible for the claimants owning and locating within said above mentioned area, and praying that the said above mentioned area, and praying that the said tracts be attached to and made a part of the said Juneau recording district, and that the order of the court establishing said district entered on the 9th day of October, 1896, be modified accordingly.

Now, therefore, it is hereby ordered that the same be, and it is hereby modified so that the boundaries of the Juneau recording district shall hereafter be established as follows, to wit:

Beginning at Cape Fanshaw, as known and located on the official map running due east to the line of British Columbia; thence running along and with said line in a northwesterly direction to its intersection with the 135 degree of longitude west; thence in a south westerly direction along the said international boundary line to its intersection with the 137th meridian to the shore line of the Pacific ocean; thence in a southwesterly direction to Cape Spencer; thence in a northeasterly direction along Cross Sound to Point Gustavus; thence in a south easterly direction along the center of Icy Straits to the center of Chatham Straits; thence southerly along the center of Chatham Straits to Point Parker to Admiralty Island; then easterly one-half degree of longitude; thence due south to the intersection of Hootz Bay thence due westerly to the center of Chatham Straits to the intersection of Prince Frederick Sound; thence northeasterly through Prince Frederick Sound to Cape Eanshaw, the place of beginning; and the boundaries of the said Juneau recording district are here by defined as herein set forth, and the boundaries of the Sitka district are changed accordingly.

By the Court,  
C. S. Johnson, Judge.

### Suffering on Edmonton Trail.

J. H. McGregor, who has just returned from Dease Lake, reports that there are at least 400 prospectors on the Edmonton trail between Dease Lake and the lower Hudson's Bay Post on the Liard River most of whom are in destitute circumstances having been on the trail over a year, having exhausted their provisions and money. Many are suffering from scurvy and frost bites, and being without proper medical attendance it will be fortunate if many do not die. MrMcGregor is taking out an appeal for help to the British Columbia Government, and it is to be hoped relief measures will be taken at once.

## GENERAL NEWS.

### A Synopsis of Happenings in the Outside World as Gleaned from Exchanges.

Gov. Brady has written a letter to the Secretary of Interior relative to the Alaska Boundary, and among other things, Governor Brady said in his letter: The Canadians, from our way of looking at matters, have constantly shown a spirit of aggression, so far as the boundary line is concerned. This is shown in three instances. There is a point upon the Stickeen, which, for years, has been regarded as upon the boundary line. Thousands of miners have passed up and down the river. Merchants have done immense business and this was always recognised as the boundary line. An American citizen is operating a quartz ledge, six miles below the recognized boundary. The Canadian officials have gone down six miles below him, thus making a gap of twelve miles. They compel him to pay duties on his supplies, which he carries in to operate this ledge.—Washington D. C. Post. The matter referred to is relative to a quartz mine owned by J. E. Sales of Wrangel. The Journal published the facts some time ago.

### Benefit Entertainment.
